SECY L & W DEPTT SPO MYSORE

Letter No A1-C-90/44-45 Dt 13-12-44 from the Chairman, C I T Bd, Mysore furnishing the opinion of the Bd on the matter

a) The City Improvement Trust Board have resolved that a separate Engineer for the Trust Board is necessary.

b) The Board have also resolved that an Executive Engineer to supervise the works of the T. Bd & the Mcd is quite necessary

It is stated that a reference in regard to the Executive Engineer has been made to the Mysore City Mcd & that a separate reference will be made in this behalf after obtaining the opinion of the Mcd.

Submitted for orders

16/12

ii) Placing up for 16/12 ms

12 Under the existing arrangements an Assistant Engineer in the grade of Rs 200-40-400 is looking after the civil Engineering works of the Mysore City Municipality and the City Improvement Trust Board. His salary is borne by the Local Bodies in the proportion of 1/3 (Trust Board) and 2/3 (Municipality)

13 The outlay incurred on the civil Engineering works in the Mysore City Improvement Trust Board and the Municipality

is noted below —

Mysore City Trust Board

	Rs
1942-43 ——	2, 34, 000
1943-44	3, 12, 000

Mysore City Municipality

	Rs
1941-42 ——	1, 78, 420
1942-43 ——	2, 15, 150
1943-44	2 35 758

14) The work in the Trust Board has greatly increased on account of the several lay outs and acquisition works taken up by the Board The works connected with the I Stage of the Elgin Fountain Road costing Rs 2, 13,000 and the ~~the~~ reframing of layed roads costing Rs one lakh have to be executed by the Board during the current year

15) The public works of the Municipality have also increased as a large number of Schemes and lay-outs have been taken up It is also proposed to take up the construction of a permanent Slaughter House at a cost of Rs 40, 000

16 The above works are rather too heavy and unwieldy for any Assistant Engineers charge

17. It is understood that, in the P W Department that works whose estimated cost ~~may not exceed~~ is about one lakh of Rupees a Year are generally entrusted to an Assistant Engineer and works

estimated to cost between Rs 6 to 8 lakhs are placed in charge of an Executive Engineer on Rs 450-50-750. There is however no hard and fast rule in this behalf. The relative order of urgency and their importance and the necessity for speedy completion of works decide the status of the Officer to hold the charge.

(8) The Mysore City Improvement Trust Board have resolved that a separate Assistant Engineer be posted for Trust Board works, & the present Assistant Engineer being detached solely for Municipal works. They also want an Executive Engineer to supervise the work of these two Officers The expenditure on this account will be met by the two Bodies in equal proportion

(9) It is doubtful if the arrangement of having an Executive Engineer under the Municipal President with independent powers would work satisfactorily

(10) Submitted for orders. The extra cost will be Rs 12,600- per annum

The opinion of the Chief Engineer for Irrigation will be placed in connection with the above proposals

Law Secy) 24/12/44

5/4/45

5/4/45

1) Cond reference is invited from pages 13 to 19 of the notes in the linked file (579-84), directing the posting of an Asst Engineer to the Bangalore city Municipality instead of an Executive Engineer The consideration that lead to this step was that the city Municipalities Act and the bye laws and the rules framed thereunder and the Municipal Accounts code vol II had to be amended So as to see that the Executive Engineer exercises the powers given to him under the P W A Code, as recommended by the Chief Engineer It is therefore for consideration of the Government, whether city Improvement Trust Board may be addressed in regard to the powers to be exercised by the Executive Engineer, if posted to the Bangalore city Municipality, consistent with the provisions of the P W Account Code

Flag L

6/4

1) These papers relate to the proposals of the Mysore & Kolar Gold Mines Improvement Trust Board to have separate Engineer officers for attending to their works. The facts of the case and the reasons which have led these two bodies to decide accordingly are explained in paras 12 to 19 of the notes Paper

2) The latest resolution of the Mysore Improvement Trust Board is to the effect that, in addition to the two officers to be appointed as above it is necessary to have an Executive Engineer to supervise the work of the two officers, the expenses being met by the Kolar Gold Trust Board in equal proportions.

3) The Chief Engineer for Irrigation has suggested that there should be one Executive Engineer who would be both a Municipal Engineer & a Trust Board Engineer and he should be assisted by an Asst Engineer.

4) There are certain difficulties in the way of posting an Executive Engineer to the Mysore City Municipality under the framework of the City Municipalities Act 1933. The Municipal Engineer who will be appointed by the

Government should be a subordinate of the President of the MLA or the MC commissioner. The powers which an Executive Engineer exercises under the P.W. Code are more than those which either the President of a city MLA or a MC can exercise. They would in fact be in conflict with the provisions under the city Acts, the Municipal Accounts Manual Part II and the Public Works Code. These are clearly explained in the statements referred to in Flgs A & IV in the file leaving for a non-P.W. officer dated 6/6/1911 # 575-84 A 31744. Having regard to the above facts of the heavy expenditure involved in having an Executive Engineer, the proposal may not be approved. There is also no necessity for it either.

3) The capital incurred on the works of the MLA of the Trust Board are however on the increase. Several important works such as the Taking of Roads, the formation of the road from the Elgin Junction to the Dilkusha & the layout of the several estates will be taken up shortly by the Trust Board. The services of an Engineer officer exclusively to attend to these works are quite necessary. It is therefore proposed to appoint an Assistant Engineer on Rs 200-40/2-400 p.m. for each of these local bodies to attend to these public works carried out by them.

This is the real difficulty in the way of posting an Executive Engineer

3.) The expenditure will be met in full by the local body concerned. Their work will not also overlap as the subjects of the two bodies are different and the works are sanctioned by each of these bodies separately they will work under the control of the President, Nyasaland Electricity Commission. Tenders Board, etc. It will be a matter of practicable to work out arrangements for working

Law Secy's file
19 4 45

4.) It will not be necessary for an executive Engineer since the Commissioner is higher powers than the President as he can do under section 31 of the Act

5.) There may be separate Engineers for one for the Power Board & for the Municipality, as there is work & the Board may be sanctioned

DE... OFFICE 13 FEB 1946 ... No 479L

Final Note by the Minister for Education and Public Health

Subject— Posting of an additional Assistant Engineer for work in Mysore City Municipality and City Improvement Trust Board, Mysore

Under the existing arrangement, an Assistant Engineer in the grade of Rs 200-40/2-400 is looking after the Civil Engineering works of both the Mysore City Municipality and the City Improvement Trust Board, Mysore His salary is borne by the two Local Bodies in the proportion of one-third (Trust Board) and two-thirds (Municipality) respectively The work in the Trust Board has greatly increased in recent years as several important layouts and acquisition works have been already taken up by the Board Besides, many costly works, such as, the tarring of roads and the formation of the road from the Elgin Fountain to the District Office, etc , will be taken up shortly Similarly, the number of public works executed by the Mysore City Municipality has also increased of late owing to the expansion of the city in several directions

The present charge is too heavy and unwieldy for a single Assistant Engineer to manage it efficiently Both the Mysore City Municipal Council and the City Improvement Trust Board have, with this end in view, finally resolved that an additional Assistant Engineer on the usual grade pay and allowances, may be posted for work in the Mysore City Municipality and the City Improvement Trust Board If this arrangement is sanctioned, there will be separate Engineering Officers to look after the works relating to the Trust Board and the Municipality

The proposal has been agreed to by the Dewan and the other Ministers in Council and I solicit His Highness' gracious sanction thereto

Mysore

To

C Narayanaswamy Naidu, Esq , B A , B L ,
Legal Remembrancer & Secretary to the Government of
His Highness the Maharaja of Mysore, Law Department,
Bangalore

Sir,

With reference to your letter No L 4653 dated 11th November 1944 calling for the opinion of the Trust Board in the matter of having an Assistant Engineer exclusively for the Municipality and one exclusively for the Trust Board as resolved by the Municipal Council, Mysore, in their Resolution No 269 dated 28th October 1944, I have the honour to state that the matter was considered by the Trust Board in their Meeting held on 29th November 1944 and the Trustees while agreeing to the proposal of having separate Engineers for the Municipality and the Trust Board, felt that it was necessary to have an Executive Engineer to supervise the work of both the Assistant Engineers, in view of the number of works of large magnitude taken up and proposed to be taken up both in the Municipality and Trust Board. It was resolved that the pay and allowances of the Executive Engineer may be met in equal proportion by both the bodies and the proposal is being referred to the Municipal Council for concurrence . A copy of the Board's Resolution in this behalf is herewith enclosed for information Final proposals for the appointing of an Executive Engineer will be submitted after the receipt of the opinion of the Municipal Council As the work in the Trust Board has very greatly increased on account of the several lay-out and acquisition works taken up by the Board and in view of the proposals since approved by the Board for taking up the 1st stage work of Elgin Fountain Road costing Rs 2,13,000/- and the re-painting of tarred roads costing Rs 1,00,000/- it is very necessary to have a separate Assistant Engineer for the Board immediately I therefore request that the proposal made by the Municipal Council may be approved and another Assistant Engineer posted to the Municipality immediately The extra cost involved in this arrangement will be met by re-appropriation of funds

P T O

Favour of early orders is solicited

231 Letter No L 4653 dated 11th November 1944 from the Secretary to Government, Law Department, requesting to obtain and forward the opinion of the Trust Board in regard to the appointment of a full time Engineer exclusively for the Municipality or also for an exclusively for the Trust Board

After taking into consideration the large number of schemes, lay-outs and public works taken up by the Municipal Council and the Trust Board, the Trust Board is of opinion that it is very necessary not only to appoint separate Assistant Engineers to the Municipality and the Trust Board but it is also essential to appoint an Executive Engineer, to supervise the work of these two Officers Besides, the Executive Engineer will be of much assistance to the Vice and Ex-Officio Chairman in the work of these two Boards As regards the appointment of the pay and allowances of the Executive Engineer the Board is of opinion that the same may be met by the two bodies in equal proportion

The Board requests that the additional Assistant Engineer may be sanctioned and posted immediately in view of the urgency of works on hand

L-258 12th July 1945 - cipal Council 5th August

To Chairman, City Improvement Board
Mysore

Sir,

With reference to the Correspondence ending with your letter No AE-20/44-45, dated 13-12-44 forwarding for sanction the Resolution of the Mysore City Improvement Board to the effect that, ~~in addition to the two Asst. Engineers~~ an Executive Engineer be posted to supervise the Engineering works in the City Municipality and the Trust Board, in addition to the two separate Asst. Engineers for attending to the work, I am directed to state that an Executive Engineer and two Asst. Engineers in the place of the present one Asst. Engineer seem to be somewhat superfluous, apart from being very expensive. The best arrangement seems to be for

the Municipality and the Trade Board each to have
engineer of the grade of a Senior Asst Engineer and
they will work under the Chairman, T & T Board
and the president, city Municipal Council, who
being both one and the same can be the
coordinating authority

If there are special works on hand at any
time they can borrow the services of an Officer
from the P W Dept temporarily

I am to enquire whether the above arrangements
are suitable

I have the
honour
Sir Your Obt Servt

Office of the Presi...

2) W O Note No 5469, dated 2-3-45, from the Chief Engineer for Irrigation, on the subject

arrangement, an Assistant-Engineer in the grade of Rs 200-40-400, is looking after the civil Engineering works of both the Mysore City Municipality and the City Improvement Trust Board, Mysore, whose salary is borne by the two Local Bodies in the proportion of one third (Trust Board) and two-thirds (Municipality) respectively. It is reported that the work in the Trust Board has greatly increased in recent years as several important layouts and acquisition works have been already taken up by the Board. Besides, many costly works, such as the laying of roads and the formation of the road from the Elgin Tomlam to the Distt. office, etc would be taken up shortly. Similarly the number

List of Enclosures

Copied by

Examined by

of public works executed by the Mysore City Municipality has also increased of late, owing to the expansion of the city in several directions. The present charge is too heavy and unwieldy for a single Assistant Engineer to manage it efficiently.

Both the Mysore City Municipal Council and the City Improvement Trust Board have, with this end in view, finally resolved that an additional Assistant Engr on the usual grade pay and allowances may be posted for work in the Mysore City Municipality and the City Improvement Trust Board.

After a careful consideration of the question, Government are pleased to sanction the appointment of an additional Assistant Engineer on the usual grade pay and allowances, for work in the Mysore City Municipality and the City Improvement Trust Board, Mysore. The entire expenditure involved in the arrangement will be met by the Local Body concerned.

The Chief Engineer (Irrigation)
